

# Be the most eco-friendly driver you can!

**96%**  
of a lead battery  
are recyclable

## BATTERIES

- Quick Tip from our Online Knowledge Center:**
- + Inspect your battery cables and posts for corrosion.
  - + Clean as needed.
  - + Check battery fluid.

## SPARK PLUGS

**▼30%**  
Fuel efficiency reduction due to worn spark plugs, old wires, or a restricted fuel injector

**▲10%**  
Fuel economy increase by replacing your spark plugs with **patented pulse plugs**

## WINDSHIELD

- Conventional windshield wiper fluid contains methanol which is poisonous.
- Our windshield washer fluid is **made on Vancouver island** using rainwater and biodegradable detergent.

## ENGINE (OIL)

Oil is highly polluting. One litre can pollute one million litres of drinking water.

- Try our Green Oil Change:**
- + Use of Re-Refined Oil which is made using 85% less energy.
  - + One gallon of reclaimed motor oil produces the same amount of engine oil as 42 gallons of crude.

## RADIATOR

Two ounces of ethylene glycol antifreeze can kill a dog, and two tablespoons can be hazardous to children.

- Our Green Cooling System Flush** uses pet-deterrent antifreeze, and flushes the complete cooling system using long-life, recycled anti-freeze.

## CAR MAINTENANCE

**▲35%** increase of emissions in the last 20 years

**▲19%** growth rate of population in same period

If your vehicle is running correctly, it will use less fuel. Have it serviced in accordance with the owner's manual and regularly check fluid levels.

Victoria Transmission provides reminders when maintenance is recommended, and completes **37-point BCAA inspection** with every service.

- Our Green Tune up:**
- + Uses all eco-friendly products
  - + Lasts more than twice as long as a conventional tune-up
  - + Reduces emissions
  - + Adds fuel mileage

## BRAKES

Particles from brakes pollute waterways.

Know when to service the brake system to keep repair costs down. Visit our **Virtual Vehicle MD** online to find out how your brakes and other parts of your car work.

## TRANSMISSION

**3x**  
longer life  
transmission

Our **Green Transmission Service** uses Synthetic Long Life Transmission Fluid. As part of the service, we remove your transmission pan, and replace the gasket and filter.

## TIRES

**▲1%**  
Fuel consumption increase caused by a tire under-inflated by 2 pounds per square inch

Inflate tires to the higher end of the recommended range and make sure your wheels are properly aligned. **Talk to us** about how to keep your tires and wheels in top shape.
